CUSTOMER ENGAGEMENT

Last chat date: 11 Sep 2026
Last chat summary: Reviewed Watch Ultra 4 product feed update (auto-syncs to AI manifest), lead dashboard (37 leads in 7 days) and sales attribution. Luv to check enabling embeds and nudges for their non-Shopify site; iDestiny to notify after product upload.
Last HubSpot touch: -

ISSUES & SATISFACTION

Issues raised: - Ultra 4 watch showing as Ultra 3 due to product feed delay
- Purchase tracking limited for offline sales
- Leads often captured with phone number but no name
- Embeds and nudges not yet available on non-Shopify site
- Instagram chats are not converting into leads or sales
- Data download and reporting issues; IVR/missed-call data is hard to track
- Purchase tracking and sales attribution are limited
- Over 2,500 AI messages billed as wrong; confusion between wallet credits and AI credits, wallet recharge needed to keep journeys running
- AI bot gave wrong or missing product answers (only phone cases shown, iPhone 17 mix-ups)
- billing dispute over about 2,500 AI messages and credit confusion (May); lack of Instagram conversions raised with concern (Jul)

CUSTOMER ENGAGEMENT

Last chat date: 13 Apr 2026
Last chat summary: Shopify brand with strong organic traffic (over 1M monthly sessions, influencer-driven) that onboarded the Manifest AI assistant in March 2026 to handle tier-1 support (order tracking) while humans handle tier-2 (refunds, damaged items); uses Gorgias as helpdesk, handles about 600 Instagram messages a month and compared Manifest email with Klaviyo. Owner Kevin Rawle is the decision maker (attends from a personal address) with Abdul Manan as the technical contact. Open: Abdul to give feedback on the Shopify app review via the shared link; Kevin and Abdul to review the Manifest marketing tool website and consider a trial; no immediate need for more Instagram automation
Last HubSpot touch: 02 Nov 2026

ISSUES & SATISFACTION

Issues raised: - Only 0.88% of about 500,000 visitors interacted with the assistant, so engagement is low
- Outstanding change requests from Abdul (as of Apr 8) and custom development needed for the new website theme
- Daily message spikes exceeded the 12,000 monthly credit allowance and the assistant was unpublished when credits ran out; spend rising from $1,100 to $1,500 on the unlimited plan
- Email queries were stacking up (since resolved) and the chat widget was not always visible on the store
- Worry that negative customer feedback and social media negativity hurt brand reputation; chargeback prevention

Last chat summary: Chatbot recommended a sold-out brisket variant, recipe recommendations were inconsistent, and a Sydney delivery-area answer was corrected. Luv Jain to investigate the variant issue and add delivery-area instructions; Jaden to monitor and test.
Last HubSpot touch: 19 Oct 2026

ISSUES & SATISFACTION

Issues raised: - Chatbot recommends sold-out product variants
- Inconsistent recipe recommendations
- Chatbot wrongly implied delivery to Sydney
- Chatbot recommends sold-out product variants (brisket case); cause traced to a misconfigured out-of-stock setting
- Recipe recommendations give inconsistent, mixed responses; retraining suggested
- Bot did not clearly state delivery-area limits (e.g. Sydney not covered), requiring manual corrections
- unresolved bugs (sold-out variants recommended; inconsistent recipe recommendations)

CUSTOMER ENGAGEMENT

Last chat date: 25 Feb 2026
Last chat summary: Improved email automation to cut manual agent work: ask for order ID before ticket creation, better AI intent classification, instant replies to tracking queries, and refined agent assignment. Bik to implement and document refund, cancellation and address-change flows; client to keep testing.
Last HubSpot touch: 19 Oct 2026

ISSUES & SATISFACTION

Issues raised: - emails wrongly assigned immediately to a single agent
- tickets created without order ID
- AI misclassifying refund and cancellation emails

Notes

Topic	Definition
MRR	The CSM sheet (August column) is the standard. Where the sheet has zero, MRR is the closed-won deal amount in the India Commercial + Mid-market or US pipeline on the company linked to the Service deal, converted to USD (HubSpot 'amount in company currency'). The MRR source column says which was used.
Account list	Only HubSpot companies at lifecycle stage Customer. Removed when the company is Churned / Closed Lost / Lead, the Service deal is in Churned or Churn Notice, or the Service deal is already in an upsell stage (Accounts for this week to Escalated). Each removal is listed on the Excluded sheet.
Critical features - Manifest	AI Agents, AI Product Assistant, Abandoned Checkout Recovery Nudge, Add to Cart Popup Nudge, Lead Generation, Integrations. 'Live' means sessions, agents, leads or integrations in September.
Critical features - BIK	WhatsApp Campaigns, WhatsApp Journeys, BIK AI Agent, Lead/Offer Widgets, CRM / Helpdesk Inbox, Email Campaigns/Journeys. 'Live' means any activity in September.
Revenue contribution %	Share of the store's total revenue attributed to the product in September. Brands with several stores show the biggest store.
Conversations (Manifest)	Sessions in which a shopper chatted with the Manifest assistant, September.
AI conversations (BIK)	BIK AI sessions in September.
Support tickets closed (BIK)	Helpdesk tickets closed in September (the dashboard does not carry tickets opened).
Widgets / channels (BIK)	Active widgets; channels with messages sent in September (WhatsApp, Email, SMS, RCS, Web push, Instagram).
Last chat	Newest customer call in Fireflies and its summary. Last HubSpot touch is the last logged activity of any kind.
Issues raised	Problems the customer raised on calls plus risk signals from billing and support emails.
Renewal	HubSpot company 'Renewal date', falling back to 'Subscription Renewal Dates'. Dates already in the past are usually stale records.
